

VICTORINOX
SWISS ARMY

2011 PROFESSIONAL CUTLERY CATALOG

MAKERS OF THE ORIGINAL SWISS ARMY KNIFE

YOUR COMPANION FOR LIFE ON THE ROAD

Increasingly, it seems, we are on the move. At work. At play. So it is natural that we should gravitate toward products designed and built to accompany us through life's journeys—a concept Victorinox has long embraced.

The requirements of mobility have driven our product designs for more than a century. Since 1891, when the Original Swiss Army Knife emerged from Karl Elsener's cutlery workshop to meet the needs of the soldier in the field. Since 1989, when the first Victorinox timepieces combined classic styling with durability equal to the most demanding environments—from the summit to the sea—too. Together with our rugged travel gear, our functional, fashionable menswear and our distinctive fragrances, these products have taken the Victorinox reputation for innovation and quality and subjected it, successfully, to the tests of trips for business and backpacking, not to mention expeditions to the Amazon Rain Forest, Mt. Everest, the North Pole, even the Moon.

Quality. Reliability. Functionality. Innovation. Iconic design. The spirit of the Original Swiss Army Knife is alive and well. Take it with you. The more you travel, the farther you go, the more you'll be glad you did.

Although Victorinox is celebrated around the world as the makers of the Original Swiss Army Knife, we actually originated as a cutlery company. By the time Karl Elsener signed his first contract to provide pocket knives to the Swiss Army, he'd been selling fine cutlery to professionals for years.

As we enter our 126th year of doing what comes naturally, not much has changed. We continue to prosper under the guiding hand of the Elsener family. And our cutlery is in the hands of more professionals—from the bustling meatpacking plants of the Midwest to the gleaming four-star restaurant kitchens of Midtown Manhattan—than any other brand.

One element that has evolved over the years has been the name on our blades. Marketed for seven decades on this continent under R.H. Forschner, our beautifully balanced, perfectly weighted, razor sharp tools display the same brand name in North America that they do everywhere in the world—the name that is on the doors of our factory in Ibach where Master Cutler Karl Elsener first set up shop in 1884. That name is Victorinox.

The Victorinox Eagle Crest

= Product is made in Switzerland by our Master Cutlers.

= Non-Victorinox product that meets our exacting quality standards.

Look for this icon throughout the catalog for interesting facts about Victorinox.

FIBROX

Made from the same material as our ergonomic black Fibrox, our white Handles offer a sanitary view that is necessary for hospital and school kitchens, large food services institutions and governmental contracts. White Fibrox and the same reliable blades you have come to expect from Victorinox are designed to minimize wrist tension and are approved by the National Sanitation Foundation (NSF).

STEELS

• Plastic Handle
Made in Sheffield, England

40589 5" Trimmer Blade, Regular Cut

40680 7" Trimmer Blade Regular Cut

How to "Steel" a Knife

- Hold the steel firmly in your left hand with the guard positioned to stop the Blade should it slip.
- Hold the knife in your right hand and place on top part of steel as shown.
- Raise back of blade one-eighth inch.
- Now, moving the blade only, draw it across the steel in an arching curve, pivoted at your wrist. The blade tip should leave the steel about two-thirds of the way down.
- Repeat the same action with the Blade on the bottom side of the steel. Always maintain the same pressure and angle on both sides of the steel.
- Repeat five or six times.

Knife not included.

EDGE-MAG • Magnetic Blade Protector

- Exclusive to Victorinox
- Functional – easy to use – really works
- Universal design – fits most sizes and shapes
- Comes in four sizes – can be cut to fit most blades
- Hygienic – washable/dishwasher safe (low temp)
- Peggable packing makes merchandising easy

ITEM #	DESCRIPTION	QUANTITY
48310	7" Protector	3 per pack
48311	9" Protector	3 per pack
48312	10 ½" Protector	3 per pack
48313	12 ½" Protector	3 per pack
48344	Multi-Pack	1 of each size

Note: Edge-Mag is manufactured with multi-poled magnets that cannot magnetize your knife. Edge-Mag utilizes complex magnetic fields that alternate every ⅛ inch and cannot permanently align the poles in any magnetically receptive object.

Features

- Now with anti-microbial yarns
- Spiral wrapped steel for the strength of steel, with comfort to match
- Highest Cut resistance by weight of any steel yarn on the market today
- Fully washable and bleachable, FDA approved materials
- Cuff contains durable, non allergenic neoprene elastic for fit and comfort, and is color coded by size
- The spiral wraps of steel are far more resistant to breakage than conVentional yarn
- The steel mono filaments that make up the spirals are encased in a textured polyester yarn and two covers of industrial strength polyester for better grip and abrasion resistance

HandSHIELD 1

- Medium weight glove (10 gauge) offers heavy weight (Level 5) performance.
- Best combination of comfort, weight and performance for all around us

HandSHIELD 2

- 7 gauge construction offers "high" Level 5 protection, in a seamless knit glove
- Suitable for off-hand wear.
- Offers the highest level of Cut protection and ergonomic benefits of flexibility and lighter weight as compared to other off-hand gloves.

Because the sharpest knives deserve the most protective gloves, ForschShield Cut Resistant Gloves are manufactured with superior materials for unsurpassed protection and slip resistance. Sized to fit every hand, our variety of gloves meets a broad range of hand protection needs.

Caution: These products are cut resistant, but not cut-proof or point puncture resistant. Do not use with wavy or serrated blades.

Available in gray only.
Packaged in individual poly bags.

SAF-T-GARD STAINLESS STEEL MESH GLOVES

Stainless steel mesh safety glove provides the ultimate cut and puncture protection. Meets OSHA requirements for meat and poultry processing applications. Each stainless steel ring is individually welded for unsurpassed strength. Taper-fit design conforms to the hand, decreasing fatigue while increasing productivity. Nylon cinch strap helps keep glove secure. Patented snap-fastener reversible style changes easily to fit either left or right hand. Custom glove sizes and configurations are available on special request. Sold individually.

niroflex 2000®

Niroflex2000 STAINLESS STEEL GLOVES

The most hygienic metal mesh glove available! Niroflex2000 gloves are 100% stainless steel and have no fabric straps to wear out or deteriorate during cleaning and sanitizing, and are the only gloves on the USDA Meat and Poultry Equipment Review Program's Accepted Product List. Niroflex2000 gloves meet ANSI/NSF/3-A 14159-2-2003, Hygiene Requirements for the Design of Hand Held Tools Used in Meat and Poultry Processing. Niroflex2000's patented wrist fastener is easily adjustable to provide a comfortable, secure fit. The reversible design fits either right or left hand. All gloves include a bar-coded serial number tag for tracking gloves when issued to employees or for charting cleaning schedule. Custom glove sizes and configurations are available on special request. Sold individually.

Repair Service:

Repaired gloves are returned within 2 working days after receipt of a repair order. FOB Northbrook, Illinois (no freight allowance). Repairable gloves are to be sent by prepaid freight to: STG Mesh Repair Dept. RHF, 205 Huehl Road, Northbrook, IL 60062

Extended Cuff Styles Available by Special Order: Please contact your Local Victorinox representative or call 1-800-243-4074 for further information. Gloves comply with USDA and OSHA requirements.
